PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 2+ years of experience building scalable web applications and APIs. Proficient in React.js, Next.js, TypeScript, Node.js, Express.js, Apollo GraphQL, MySQL, and MongoDB. Experienced in developing responsive UIs, optimizing backend performance, and implementing secure role-based systems. Proven ability to deliver on live production SaaS applications in agile team environments.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Context API, Bootstrap, jQuery
Backend: Node.js, Express.js, Apollo GraphQL
Database: MySQL, MongoDB
Tools & Others: RESTful API Development, MVC Architecture, OOP, Git, GitLab, Postman, Fetch/Axios, Responsive Design, JSON

PROFESSIONAL EXPERIENCE

MERN Stack Developer
TechErudite | September 2025 – Present
- Developed and optimized modules for Faces Consent, a live SaaS platform for aesthetic clinics, using React.js, Next.js, TypeScript, and Apollo GraphQL.
- Built type-safe, reusable React.js and Next.js components for practitioner dashboards, booking flows, and role-based admin panels.
- Designed and integrated Apollo GraphQL APIs with Node.js for efficient, real-time data handling across web and mobile clients.
- Collaborated in an agile team to ship feature updates, resolve bugs, and maintain production code quality.

MERN Stack Developer
MKS DigiTech | September 2024 – September 2025
- Integrated RESTful APIs with Node.js and Express.js, improving API response time by 20%.
- Implemented role-based access control and multi-user management to strengthen application security.
- Optimized MySQL queries, reducing data retrieval time by 30% and improving overall responsiveness.
- Developed reusable React.js components with Redux and Context API for better maintainability.

Full Stack Developer Intern
Hyperlink Infosystem | January 2024 – July 2024
- Built responsive web interfaces using HTML5, CSS3, JavaScript, Bootstrap, and jQuery.
- Developed React.js components integrated with Node.js APIs for data-driven applications.
- Collaborated with the development team to debug, test, and optimize application performance.

KEY PROJECTS

Faces Consent – Clinic Management SaaS (TechErudite)
Tech Stack: React.js, Next.js, TypeScript, Apollo GraphQL, Node.js, MySQL, MongoDB | Live: facesconsent.com
- Contributed to a production SaaS platform for aesthetic practitioners covering digital consent forms, bookings, prescriptions, team roles, and payments.
- Built GraphQL queries and mutations with Apollo to replace REST endpoints, improving data-fetching efficiency and reducing over-fetching.

Otteri Laundry System (MKS DigiTech)
Tech Stack: React.js, Node.js, MySQL | Live: play.google.com/store/apps/details?id=com.mksoterri.app
- Built a multi-panel system for Styler, Exhibitor, and Admin with role-based routing and dashboards.
- Developed order tracking, user interaction modules, and secure MySQL authentication mechanisms.

EDUCATION

Master of Computer Applications (MCA)
Dharmsinh Desai University | 2022 – 2024

Bachelor of Computer Applications (BCA)
Maharaja Krishnakumarsinhji Bhavnagar University | 2019 – 2022

CERTIFICATIONS

- Full Stack Developer Internship – Hyperlink Infosystem
- MERN Stack Live Projects – MKS DigiTech LLP
