PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 2+ years of experience building scalable web applications and RESTful APIs. Proficient in React.js, Node.js, Express.js, and MySQL. Experienced in developing responsive UIs, optimizing backend performance, and implementing secure role-based systems. Proven ability to work on live production applications in agile team environments.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Context API, Bootstrap, jQuery

Backend: Node.js, Express.js, Apollo GraphQL

Database: MySQL

Tools & Others: RESTful API Development, MVC Architecture, OOP, Git, GitLab, Postman, Fetch/Axios, Responsive Design, JSON

PROFESSIONAL EXPERIENCE

MERN Stack Developer

TechErudite | September 2025 – Present

- Developed and optimized modules for Faces Consent, a live SaaS platform used by aesthetic clinics for digital consent forms, appointment booking, team management, and client records.
- Built reusable React.js components for practitioner dashboards, booking flows, and role-based admin panels.
- Integrated and optimized Node.js REST APIs to support real-time data handling across web and mobile clients.
- Collaborated in an agile team to ship feature updates, resolve bugs, and maintain production code quality.

MERN Stack Developer

MKS DigiTech | September 2024 – September 2025

- Integrated RESTful APIs with Node.js and Express.js, improving API response time by 20%.
- Implemented role-based access control and multi-user management to strengthen application security.
- Optimized MySQL queries, reducing data retrieval time by 30% and improving overall responsiveness.
- Developed reusable React.js components with Redux and Context API for better maintainability.

Full Stack Developer Intern

Hyperlink Infosystem | January 2024 – July 2024

- Built responsive web interfaces using HTML5, CSS3, JavaScript, Bootstrap, and jQuery.
- Developed React.js components integrated with Node.js APIs for data-driven applications.
- Collaborated with the development team to debug, test, and optimize application performance.

KEY PROJECTS

Faces Consent – Clinic Management SaaS (TechErudite)

Tech Stack: React.js, Next.js, TypeScript, Node.js, MySQL | Live: facesconsent.com

- Contributed to a production SaaS platform serving aesthetic practitioners for managing digital consent forms, client bookings, prescriptions, team roles, and in-app payments.
- Optimized module performance and developed new features including role-based dashboards and booking management workflows.

Oteri Laundry System (MKS DigiTech)

Tech Stack: React.js, Node.js, MySQL | Live: play.google.com/store/apps/details?id=com.mksoterri.app

- Built a multi-panel system for Styler, Exhibitor, and Admin with role-based routing and dashboards.
- Developed order tracking, user interaction modules, and secure MySQL authentication mechanisms.

EDUCATION

Master of Computer Applications (MCA)

Dharmsinh Desai University | 2022 – 2024

Bachelor of Computer Applications (BCA)

Maharaja Krishnakumarsinhji Bhavnagar University | 2019 – 2022

CERTIFICATIONS

- Full Stack Developer Internship – Hyperlink Infosystem
- MERN Stack Live Projects – MKS DigiTech LLP
